UNITED WAY OF LANE COUNTY 2022-2023

United Way of Lane County envisions a community where every child succeeds in school and life.

If families are unable to afford housing or access high-quality preschool, and if students aren't reading proficiently in third grade or graduating with necessary knowledge and skills, they are less equipped to pursue their dreams and succeed later in life.

Together, we can ensure children have the resources and opportunities to thrive.

Your gift to United Way tackles day-to-day and systemic challenges: by funding programs helping families and children thrive, and allowing United Way to strategize solutions to complex challenges, bolster nonprofits' capacity and equity and inclusion efforts, bring new resources into our communities, mobilize hundreds of volunteers annually, and more.

"We cannot emphasize enough how grateful we are for United Way's ongoing support... it helps us with our strategic planning, keeping our waitlist open, and scaling our services."

- Daisy C.H.A.I.N.

With a 75-year history of investing in Lane County, we excel in bringing organizations and sectors together to tackle tough challenges and can respond quickly to emerging needs. In launching our new Racial Justice Fund, we're now investing even more deeply in kids' success and resilient communities. **United Way was built for times like these.**
