DESCRIPTION	Community Transformation awards are intended to foster and support strategic, long-term approaches to effecting positive systemic change for children and youth in our community. We aspire to support cross-sector, multi-agency collaboratives which are operating with a common agenda, shared measurements, and a backbone organization.	Community Support awards are intended to support projects and organizations that demonstrably increase stability for children and families in Lane County. These awards may be used for programs, activities, or organizational capacity, and can also be used to support collaborative efforts between multiple agencies.
